

ELRC Workshop in Belgium

Conclusions

Stijn De Smeytere
Chancellery of the Prime Minister

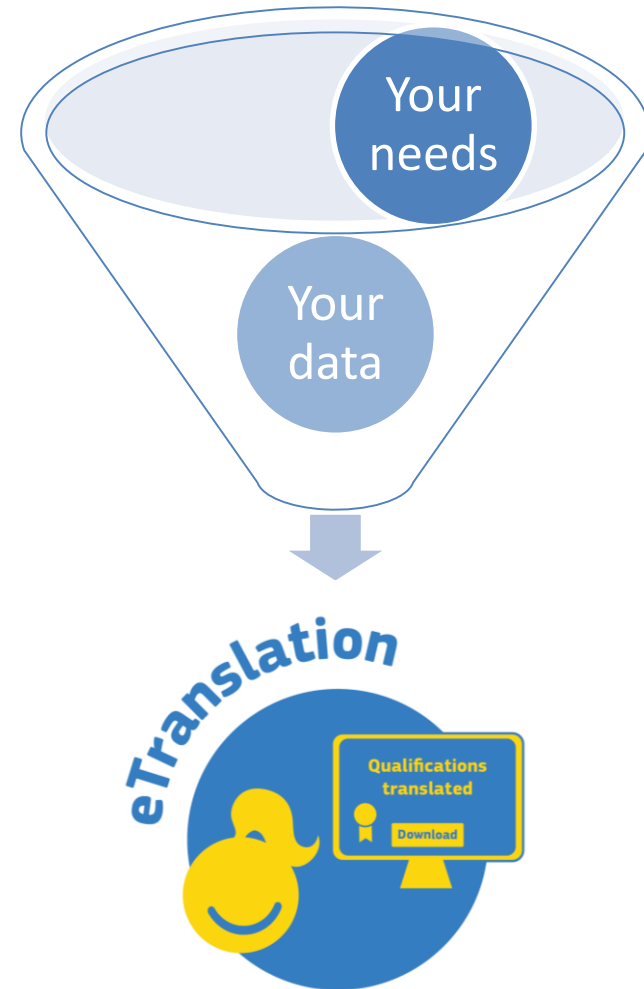

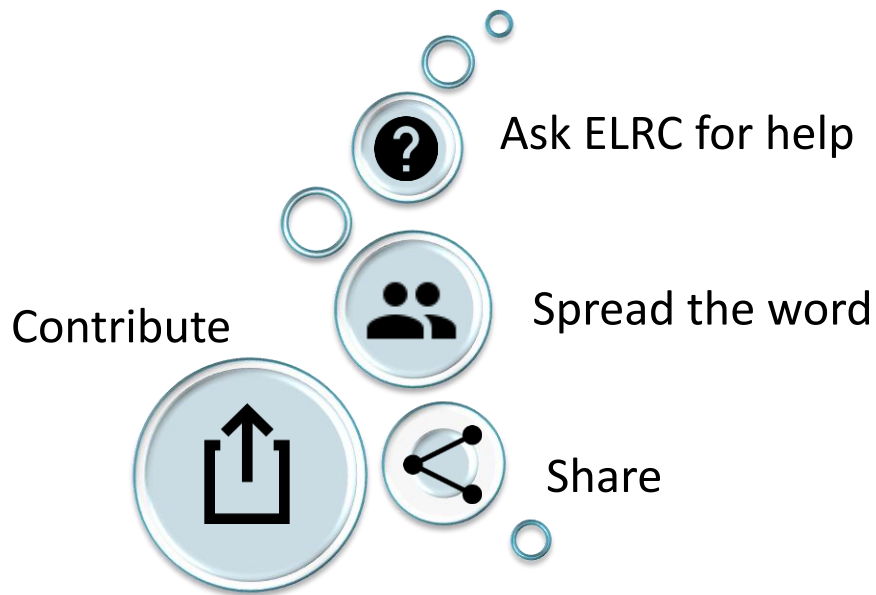

- CEF, eTranslation and ELRC
- Strategies and actions in Belgium for eGov, open data, multilingualism and language technologies
- Rough sketch of the legal frame for public sector data sharing, the PSI
- Types of data needed and how you can share with ELRC
- How ELRC can help you

CEF eTranslation: multilingualism enabler for public online services

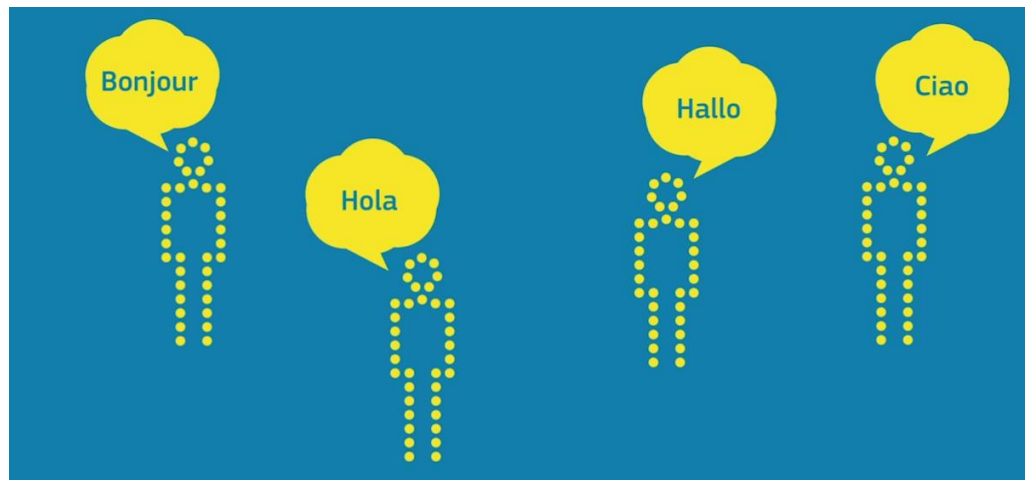

- **For Public Administrations:** web user interface for use by human users
- **For System Suppliers:** automated translation capabilities for digital services by API integration

- Most of the texts generated by the public sector are public **open** data
- Share your data (multilingual collections, terminologies, or even large monolingual collections) with eTranslation through the ELRC repository
- Ask for help
 - ELRC Technical and Legal Helpdesk
 - Onsite assistance by ELRC experts for preparing, processing and anonymizing your data

Why should I get involved?

Your opinion and experiences matter to ELRC!

- Engagement form
- Feedback form
- Certificate of attendance

Thank you!
