1. Introduction

The European Commission is committed to protecting your personal data and to respecting your privacy. The Commission collects and further processes personal data pursuant to Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices, and agencies and on the free movement of such data (repealing Regulation (EC) No 45/2001).

This privacy statement explains the reason for the processing of your personal data, the way we collect, handle, and ensure the protection of all personal data provided, how that information is used and what rights you have in relation to your personal data. It also specifies the contact details of both the Data Controller in charge with whom you may exercise your rights and the Data Protection Officer.

This privacy statement concerns the processing operation “3rd ELRC Workshop in Latvia” undertaken by Unit G.3 as presented below.

2. Why and how do we process your personal data?

Purpose of the processing operation: Unit G.3 collects and further processes your personal data to provide you with information about the 3rd ELRC Workshop in Latvia (before, during and after) and to process your application for participation in that event.

Live web-streaming and audio-visual recording at the event of the speakers, organisers and participants, as well as photographs of the speakers and panoramic photographs of participants and organisers will be taken and published in the context of the event on the ELRC Website (www.lr-coordination), on the ELRC intranet and on the internet, including ELRC social media channels.

The audience or non-speaker participants are not photographed individually or in groups. They may however appear on panoramic photographs of the whole event.

Participants that do not wish to be part of the above web-streaming and recording/publishing activities have the possibility to object to processing by indicating this when registering to the event. In the case of objections to recording, they have a chance to participate via YouTube. In the case of objections against filming, they will not be filmed. And in the case of objections against the mere publication, materials including records of them will not be published. In the case of web-streaming, participants are not filmed in any case.

During the event, participants will be asked to take part in polls or quizzes or to give ideas or questions to the organisers.

This information will be collected anonymously, and the processing of personal data is only to ensure that participants have answered once to the question posed and to recuperate the session should there be technical issues.

During a virtual conference, the organiser will record the speakers, including any question and answer sessions or panel discussions. You will be informed by an alert on your screen when the recording is taking place. The recording will be used for internal purposes only to enable accurate minute taking. Participants who object to the recording won't be able to attend the virtual conference but may follow it on YouTube (in case the event is streamed).

We contact you either on the basis of your specific request to be invited to one of our events, of previous contacts you had with ELRC or the European Commission.

Your personal data will not be used for any automated decision-making service including profiling.
