EUROPEAN LANGUAGE RESOURCE COORDINATION
# THE THIRD ELRC WORKSHOP IN IRELAND
CONCLUSIONS

24th June 2021

TOPICS RAISED

- The potential of LT to transform governance, administration, commerce and society

- The **lack of** technological readiness of Irish in the AI era

- Ireland's position with regards to the development and adoption of LT for Irish

- Activities at the EU level towards a wider development and adoption of LT for Irish

- The EU Open Data Directive

LESSONS LEARNT

- Speakers of less spoken languages are facing a digital timebomb

- While Ireland is a leader in AI technologies, this only applies to the English language

- Better funding and planning is required to ensure Irish is digitally prepared going forward

- LT and AI need more data!

- Share your language data nationally and with Europe

Questions on technical or legal aspects of language data?

Contact the **ELRC Helpdesk or Irish NRS Support** for topics related to the

- use
- production
- collection
- processing
- sharing

...of language resources

THANK YOU TEAM!

GO RAIBH MAITH AGAIBH!
