

# Workshop updates and lessons learnt:

Practical hints and tips

Maria Giagkou (ILSP), Lilli Smal (DFKI)

# Why a second ELRC workshop?

- Catch-up and update
  - What is new in CEF
  - What is new in eTranslation
- eTranslation as a multilingualism enabler of digital services

### The main focus

- eTranslation: Making European <u>digital public services</u> <u>multilingual</u>
- The role of language data: share your data to make your digital services better

# **Suggested Timeline**

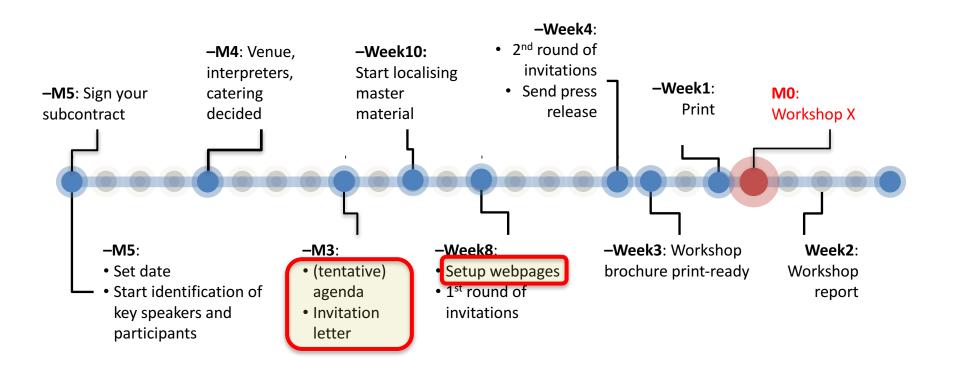

# **Suggested Timeline**

# Some notes on sessions The panel session (1/2)

- Purpose: To present public digital services that (could) use the CEF DSIs, especially the eTranslation DSI, and to investigate their needs for multilingual communication
- Types of public digital services: cross-boarder character, e.g.
  - The national access points or re-users of EESSI (social security), eHealth, BRIS (business registers), eJustice, eProcurement, Europeana, Safer Internet for kids, Cybersecurity, Public Open Data
  - Other services that need to serve multilingual content, i.e. potential re-users of eTranslation

# Some notes on sessions The panel session (2/2)

# —The national open data portal: Why?

- National open data portals are linked to the European Data Portal (<a href="https://www.europeandataportal.eu/">https://www.europeandataportal.eu/</a>), which already reuses eTranslation
- Advocate that <u>public sector information</u> is not only statistics, budgets and climate data. It is also the <u>language data</u> produced by public bodies

### Questions and answers

- Be prepared to answer questions
- See master presentation S2.5 including FAQs and their answers (these are <u>for your own use</u>, they are not intended to be presented)
- Most frequent questions:
  - Access to eTranslation
  - IPR of outsourced translations
  - Types of language data relevant to ELRC
  - Data protection and personal data
  - Cases for data processing and onsite assistance

# Reporting

- Deadline: 2 weeks after the workshop
- Please try to meet this deadline. A week's extension is possible, but should be justified
- Use the internal report template available on Sharepoint
- Mind the requested sections, e.g.
  - The panel session should be elaborated, especially if the panelists have not used any slides
  - Some information on the national open data portal is requested
  - A concise synthesis of the discussions and the main points raised by participants should be provided

### Role of the DGT Field Officers

#### YES:

- Co-deciding on the most suitable date
- Mediating for reserving the EC premises, where such exist and are available

#### NO:

- Organisation, inviting, contacting speakers or participants
- Mediating with potential data owners
- MAYBE, depending on the FO's availability and degree of engagement:
  - Providing you with possible <u>readily available</u> contacts for workshop participants and speakers
  - Helping in advertising the event through their already available channels
  - Giving a welcome speech or the eTranslation presentation
