ELRC Workshop in the Netherlands
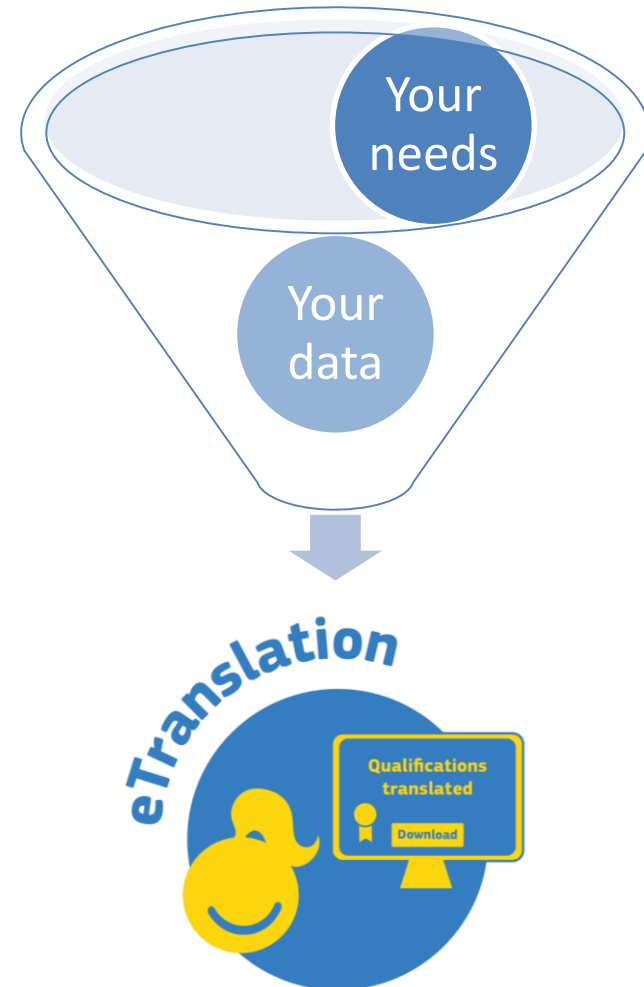

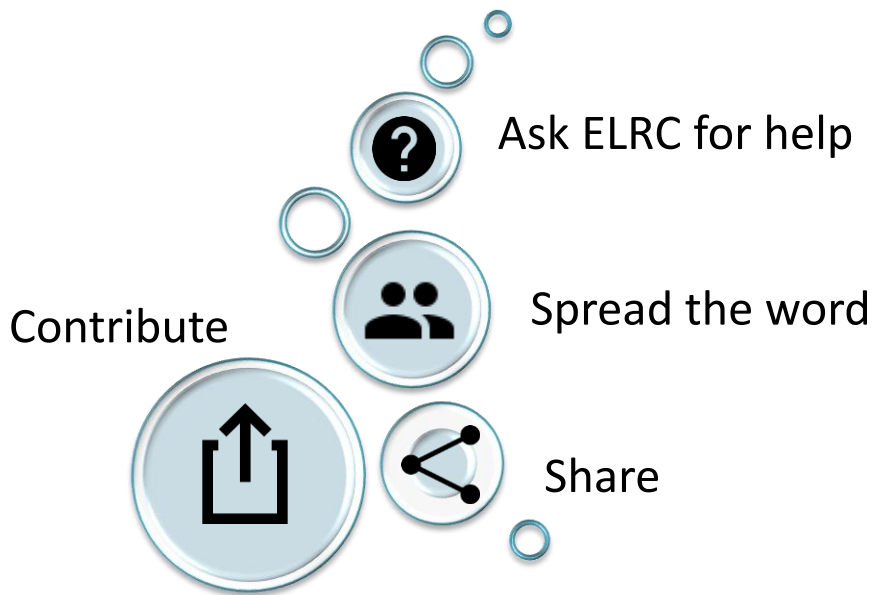

Conclusions

Jan Odijk / Carole Tiberius

- CEF, eTranslation and ELRC

- Strategies and actions in NL for eGov, open data, multilingualism and language technologies

- Rough sketch of the legal frame for public sector data sharing, the PSI

- Types of data needed and how you can share with ELRC

- How ELRC can help you

## CEF eTranslation: multilingualism enabler for public online services

- **For Public Administrations:** web user interface for use by human users

- **For System Suppliers:** automated translation capabilities for digital services by API integration

Ask ELRC for help

Share

- Most of the texts generated by the public sector are public **open** data
- Share your data (multilingual collections, terminologies, or even large monolingual collections) with eTranslation through the ELRC repository
- Ask for help
  - ELRC Technical and Legal Helpdesk
  - Onsite assistance by ELRC experts for preparing, processing and anonymizing your data

Why should I get involved?

Your opinion and experiences matter to ELRC!
